

### Working Toward Self Support.

After seeing the vendor set up at the China Mall in Manila, (See previous prayer letter) the Mangyans decided to do the same in order to increase income to support the tribe. Here you see them at their booth in the local outdoor market in Naujan. Timothy mission has just launched them on a project to add 2000 coffee plants to the farm.

## The Work Continues In Sothwest Mindoro

Pastor Rubio is still trekking the mountains to care for the Mangyan tribes and teach them the Word. These are photos from his latest trip. The heavey rains made the walk interesting.

Below: Timothy Mission has built 5 churches in the region Pastor Rubio serves in this past year and supplied food for each tribal outreach. We have sponsored him for travel and lodging to go to the pastor trainings we send Pastor Ordiales to do. But sometimes it is the little things that count just as much. Here is a text I got from Pastor Rubio after supplying him with study material for sermon preparation.

Hi kuya i really really love the moody bible commentary and it really helps me a lot in my studies and making my preaching sermon

Thank you so much im just amazed to have that kind of book

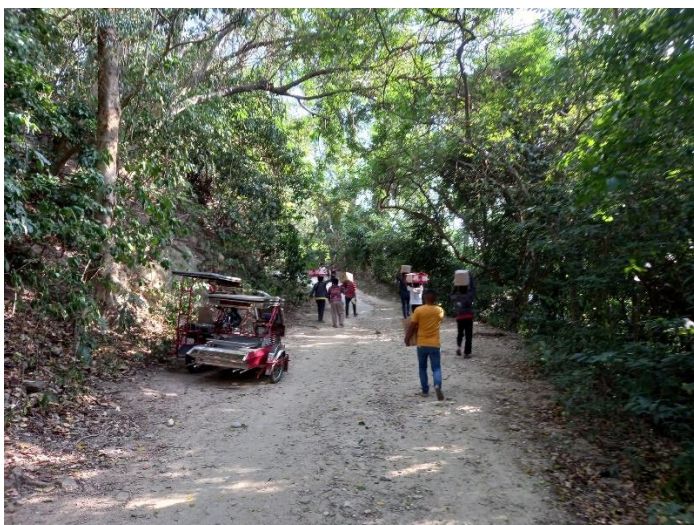

## Additional Info Regarding The Previous Training Trip Covered In The Last Prayer Letter

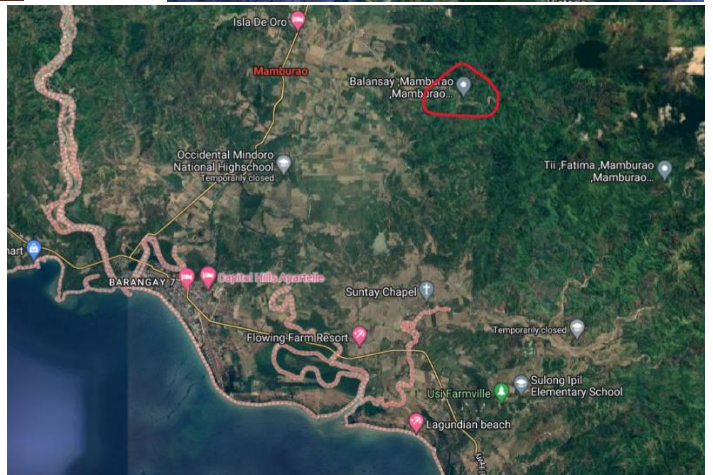

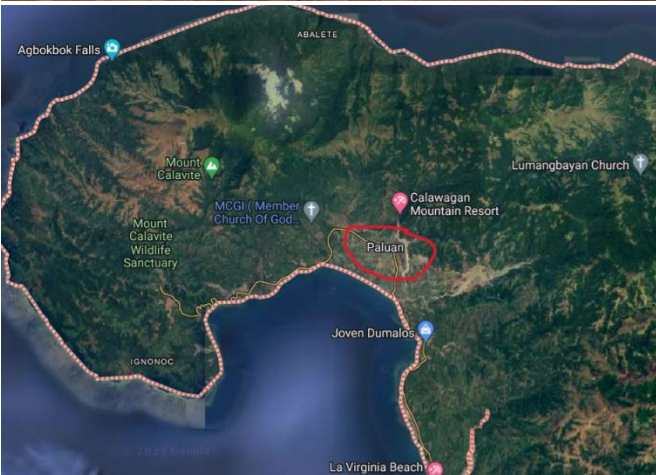

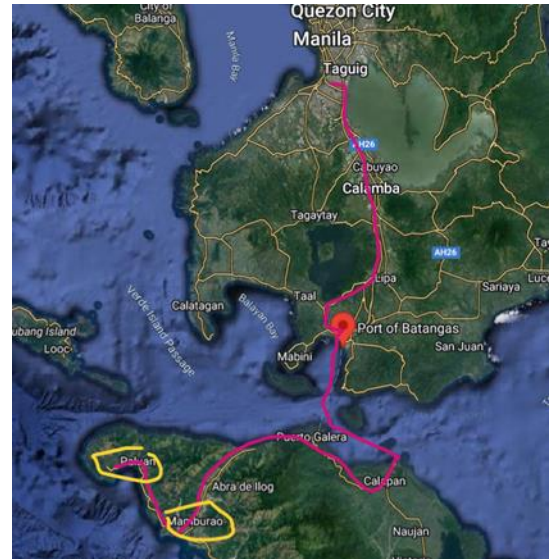

Mission accomplished.

Leo

Above are more photos from the training trip reported in the last prayer letter. The Bibles and commentaries loaded in Pastor Leo's car eventually reached the island where the training was done. But as you can see, it required transferring them to a boat to get to the destination, loading them on a trike and eventually carrying them up a trail. The top right photo show two of the recipients of the Bibles and books.

## More Pastor Training Ahead

We are sending off Pastor Leo to do more pastor training in November. This will be in the north west of Mindoro. The Bibles and commentaries are all prepped to be shipped ahead of the trip. The top left photo shows the trip that will be made from Manila to Mamburao and Paluan. Paluan is easily accessed but as you can see in the map on the bottom right Mamburao will be another mountain trek.

## Regarding the Children's Village

We currently have several sick children, so we would appreciate your prayers. Little Kylie and her mum are back in hospital again. They generally get out for a few days and have to go back in again. It's incredibly exhausting for them both. Unfortunately, her illness is something with no quick fix. She needs a miracle to get through this.

Would you pray for Kylie?

Next up, we have Rose Anne in the center. She came in from another children's home as she needed heart surgery asap. We were able to have it done this week, and she's now back at CRU recovering and will hopefully be able to return to her Childrens Home soon.

Lastly, pray for Weng. After the swimming, she took really ill. The sunlight exposure seems to have badly flared her lupus. She needs your prayers urgently. She is admitted and having treatment now.

Following is a clear explanation of the Children's Village Project as explained by Claire. The special needs wing is why Timothy Mission is involved in this partnership, as disability ministry is part of our mission statement. It is an ambitious project and will exceed the services of the House of Love and Compassion God used us to establish in another province. ---

“We aren't raising orphans, we're raising sons and daughters. That's the mission of Helping Hands Healing Hearts Ministries, a 501(c)(3) ministry dedicated to serving Filipino children in crisis in Baguio City, Philippines.

With a 21-year legacy, we've served thousands of children and families across the Philippines. Through our Children's Home, we provide residential care and education for children from a variety of crisis and trauma backgrounds. While family preservation is always our main goal, we support adoption and have been able to place over 50 children into forever families through local and intercountry adoption. Through our Children's Recovery Unit, we provide practical, emotional, spiritual, and financial assistance toward children's recovery from illness while in the hospital and after their release. Our current staff of 32 provides around-the-clock care to 35 children.

We would love to serve more children, but our space is limited. Our current facilities are retro-fitted homes that, after using for 11 years, are no longer well equipped for the demands and necessities of our work. From daily care of children to palliative care facilities, multipurpose flex spaces, and administrative capabilities, we need a space designed with the needs of our children in mind. We need a space purpose-built to serve the wide variety of needs that our team addresses.

After years of praying and believing, we've purchased a 3,235 square-meter plot of land in Tuba, Benguet, a few miles outside of Baguio City. Now, we're raising money to begin construction on this property in 2024 before the monsoon season begins.

The Children's Village will be a haven for kids to come, heal, process, receive Spiritual care, and hopefully be reunited with their families. The property will have a Children's Home for those who need residential care, a Children's Recovery Unit for those who need medical care, **a wing equipped for those with special needs**, and a palliative care wing for those who need end-of-life care. The children we reach generally come from far-flung provinces where access to medical care is limited. Without our help, their chances of survival are limited. This land is strategically located in proximity to partner hospitals, as the well-being of our children is our top priority. The Children's Village will also serve as the hub for our community program which provides medical care to children across the Philippines who can remain in their own homes for medical treatment or recovery with our assistance.

With your help, we can continue to share the love of Jesus with children across the Philippines. If you can help these children in any way, we would value your support. Even sharing this page can be a small step to help in this work.

With phase one of this campaign, we are seeking \$105,000 to support the construction of the most fundamental of our facilities, our Children's Home. This construction will enable us to eliminate a portion of our monthly expenses in rent and move into a space purposefully built with Helping Hands in mind. Every dollar of funds raised will go directly toward this effort to care for the children God has entrusted us.

Together, there's no limit to what God can do through us."

---

If you feel led to help, please cut out and use this section to send your gift. You will receive a tax-deductible receipt from CMC. Please check your designated use.

Support disability ministry.

Church Planting / National Pastor Development and Support.

As needed. (Mangyan outreach, evangelism materials. Bibles, medical care, etc.)

Children's Village project.

Sponsor a family of four orphaned Mangyan children. (This has been covered until April 2024 by a donor for one year! Thank you friends!)
